ELLIS'S

(REGISTERED) SIMPLE FOOT GEAR

Self-measurement System

For Ladies, Gentlemen and Children.

Send a Twopenny Stamp for WireTape Measure. A Complete Catalogue Post Free. Beware of Jealous Unregistered Imitators.

With an ordinary tape-measure determine the width around the joints AA, around the instep BB, round heel CC, round ankle DD, next ascertain the length and width of tread by placing the foot on a sheet of paper, and running a lead pencil around the heel and toes. Cut the outline thus made with a scissors, and enclose with the other measurements, stating what size you generally take, what are your peculiarities—a weak ankle, perhaps a pet corn, ingrowing nails, or a bloom ing bunion, all these little matters attended to. If you have a long thin foot, or a short thick one, with very high instep, send to ELLIS'S, where you are sure to get a fit. The proprietor, with a view of introducing this new and simple system into the country districts where practical bootmaking is unknown, has decided to supply his patrons at the Lowest Cash Prices.

POST FREE to any part of Australia or N.Z. As ELLIS'S Boots are made on specially constructed lasts, giving the foot an ample round, you can wear them straight away with ease and comfort.

Send for Catalogue, post free.
