

Welcome to the / Bienvenue au
Wikidata transl-a-thon
Wikimania 2017, Montréal

User : _____

Babel : _____
ex. fr-N eo-4 en-2 br-1

Mission

On this level 3, your goal is to make Wikidata more consistent and powerful. To achieve this, join contributors from other cultural and language backgrounds, and discuss how to build a more consistent tree structure for Wikidata items.

Tips

P279 and P30 will be your best friends today, but don't hesitate to take a paper and a pen. You can use Reasonator in order to find a part of the Wikidata tree that needs gardeners.

Why people will thank you for the eternity

Improving the Wikidata tree makes it a more powerful tool. For instance, it makes SPARQL requests more accurate, and it's easier to explore data.
