

Објављени научни радови

Књиге

1980

*Topics in Arithmetical Functions*. Asymptotic formulae for sums of reciprocals of arithmetical functions and related results. J.-M. De Koninck and A. Ivić. — Amsterdam, North-Holland Publishing Company, 1980; XVII + 262. (North-Holland Mathematics Studies 43. Notes de Mathematica 72).

1983

*Topics in recent zeta-function theory* — Orsay, Université Paris-Sud. Département de Mathématique, 1983; 8 + 272 + 3. (Publications Mathématiques d'Orsay). [Umnoženo mehanografski].

1985

*Pregled novijih rezultata analitičke teorije brojeva*. — Brojevi. Zagreb, Školska knjiga, 1985; 296—312.

*The Riemann zeta-function*. The theory of the Riemann zeta-function with applications. — New York, John Wiley and Sons, 1985; XVI + 517.

Чланци и студије

1973

- An application of Dirichlet series to certain arithmetical functions.* — *Mathematica Balkanica*, 1973, 3, 25; 158—165.
- An asymptotic formula for elements of a semigroup of integers.* — *Математички весник*, 1973, 10(25), св. 3; 255—257.
- On a certain integral equation.* — *Математички весник*, 1973, 10(25), св. 3; 259—262.

1974

- О неким аритметичким функцијама везаним за расподелу простих бројева.* — *Зборник радова Природно-математичког факултета — Универзитета у Новом Саду*, 1974, 4; 9—17.

1975

- A convolution theorem for arithmetical functions.* — *Mathematica Balkanica*, 1975, 5, 25; 145—149.
- On certain functions that generalize von Mangoldt's function  $\Lambda(n)$ .* — *Математички весник*, 1975, 12(27); 361—366.

1976

- On an arithmetical semigroup connected with quadratic residues.* — *Доклады Болгарской академии наук*, 1976, Т. 29, бр. 9; 1257—1259.
- On a class of arithmetical functions connected with multiplicative functions.* — *Publications de l'Institut Mathématique*, 1976, n. s. 20(34); 131—144.
- On a number-theoretical system of functional equations.* — *Зборник радова Природно-математичког факултета — Универзитета у Новом Саду*, 1976, 6; 1—5.

1977

- The distribution of values of some multiplicative functions.* — *Publications de l'Institut Mathématique*, 1977, n. s. 22(36); 87—94.
- On the asymptotic formulas for a generalization of von Mangoldt's function.* — *Rendiconti di Matematica*, 1977, Serie VI, (1) V. 10; 51—59.
- On the asymptotic formulae for some functions connected with powers of the zeta function.* — *Математички весник*, 1977, 1(14) (29); 79—90.
- A property of Ramanujan's sums concerning totally multiplicative functions.* — *Beograd, Univerzitet*, 1977; 74—78. (Publikacije Elektro-

tehničkog fakulteta Univerziteta u Beogradu. Serija: Matematika, fizika, n. 577—598).

*Two inequalities for the sum of divisors function.* — Зборник радова Природно-математичког факултета — Универзитета у Новом Саду, 1977, 7; 17—22.

1978

*An asymptotic formula for reciprocals of logarithms of certain multiplicative functions.* Jean-Marie de Koninck and Aleksandar Ivić. — Canadian Mathematical Bulletin, 1978, 21(4); 409—413.

*The coefficients in a Bosen series expansion of spin 1/2 operators.* D. Kapor and A. Ivić. — Physica status solidi (b) (Berlin, DDR), 1978, 90 K; 157—159.

*A convolution theorem with applications to some divisor problems.* — Publications de l'Institut Mathématique, 1978, n. s. 24(38); 67—78.

*The distribution of values of the enumerating function of non-isomorphic abelian groups of finite order.* — Archiv der Mathematik, 1978, v. 30, f. 4; 371—379.

*О хипотезама Голдбаха и простим бројевима близаницима.* — Математика, 1978, 1; 42—46.

*On the asymptotic formulas for powerful numbers.* — Publications de l'Institut Mathématique, 1978, n. s. 23(37); 85—94.

*A theorem in asymptotic number theory.* — Colloquium Mathematicum (Wrocław), 1978, XXXIX, 1; 179—184.

1979

*On Surs of Large Differences between Consecutive Primes.* — Mathematische Annalen, 1979, 241; 1—9.

*A note on zero-density estimates for the zeta-function.* — Archiv der Mathematik, 1979, v. 33, f. 2; 155—164.

1980

*Estimates for sums involving the largest prime factor of an integer and certain related additive functions.* Paul Erdős and Aleksandar Ivić. — Studia Scientiarum Mathematicarum Hungarica, 1980, 15; 183—199.

*Exponent pairs and the zeta-function of Riemann.* — Studia Scientiarum Mathematicarum Hungarica, 1980, 15; 157—181.

*On certain sums involving von Mangoldt's function in short intervals.* — Publications de l'Institut Mathématique, 1980, n. s. 27(41); 91—98.

*Remarks on some number-theoretic functional equations.* A. Ivić and W. Schwarz. — Aequationes Mathematicae, 1980, 20; 80—89.

*Sums of reciprocals of certain additive functions.* Jean-Marie de Koninck and Aleksandar Ivić. — *Manuscripte mathematica*, 1980, 30; 329—341.

1981

*Estimates for certain sums involving the largest prime factor of an integer.* A. Ivić and C. Pomerance. — *Colloquia Mathematica Societatis János Bolyai*, 34. Topics in classical number theory, Budapest, 1981; 769—789.

*Exponent pairs and power moments of the zeta-function.* — *Colloquia Mathematica Societatis János Bolyai*, 34. Topics in classical number theory, Budapest, 1981; 749—768.

*On the Number of Finite Non-isomorphic Abelian Groups in Short Intervals.* — *Mathematische Nachrichten* (Berlin, DDR), 1981, 101; 257—271.

*Reciprocals of certain large additive functions.* J.-M. de Koninck, P. Erdős and A. Ivić. — *Canadian Mathematical Bulletin*, 1981, 24(2); 225—231.

*Sum of reciprocals of the largest prime factor of an integer.* — *Archiv der Mathematik*, 1981, v. 36, f. 1; 57—61.

1982

*The distribution of powerful integers.* A. Ivić and P. Shiu. — *Illinois Journal of Mathematics*, 1982, 26, 4; 576—590.

*On sums involving reciprocals of certain arithmetical functions.* Paul Erdős, Aleksandar Ivić. — *Publications de l'Institut Mathématique*, 1982, n. s. 32(46); 49—56.

1983

*The effect of A. C. superimposed on D. C. in the electrodeposition of metals.* M. D. Maksimović, D. Č. Totovski, A. P. Ivić. — *Surface Technology*, 1983, 18; 233—241.

*Large Values of the Error Term in the Divisor Problem.* — *Inventiones Mathematicae*, 1983, 71; 513—520.

*On the Number of Abelian Groups of a Given Order and on Certain Related multiplicative Functions.* — *Journal of Number Theory*, 1983, 16, 1; 119—137.

*On the number of abelian groups of a given order and the number of prime factors of an integer.* — *Зборник радова Природно-математичког факултета — Универзитет у Новом Саду*, 1983, 13; 41—50.

1984

*The distribution of the average prime divisor of an integer.* Jean-Marie de Koninck and Aleksandar Ivić. — *Archiv der Mathematik*, 1984, 43; 37—43.

*Sommes de réciproques de grandes fonctions additives.* Jean-Marie de Koninck et Aleksandar Ivić. — Publications de l'Institut Mathématique, 1984, n. s. 35(49); 41—48.

*A zero-density theorem for the Riemann zeta-function.* — Труды Математического института АН ССР, 1984, 163; 85—90.

*Zeta-funkcija Riemann-a, problem delitelja i problem kruga.* — 4. konferencija »Algebra i logika«, Zagreb 7—9. VI 1984. Zagreb, Matematički odjel PMF-a, 1984; 1—14. [Умножено механографски].

*The distribution of primitive abundant numbers.* — Studia Scientiarum Mathematicarum Hungarica, 1985, 20; 183—187.

*On squarefree numbers with restricted prime factors.* — Studia Scientiarum Mathematicarum Hungarica, 1985, 20; 189—192.

1986

*Local densities over integers free of large prime factors.* Aleksandar Ivić and Gérald Tenenbaum. — Quarterly Journal of Mathematics. Oxford, 1986, (2), 37; 401—417.

*The number of finite non-isomorphic groups in mean square.* — Hardy-Ramanujan Journal, 1986, 9; 17—23.

*On sums involving reciprocals of the largest prime factor of an integer.* P. Erdős, A. Ivić and C. Pomerance. — Glasnik matematički, 1986, 21(41); 283—300.

*On the distance between consecutive divisors of an integer.* Jean-Marie de Koninck and Aleksandar Ivić. — Canadian Mathematical Bulletin, 1986, 29(2); 208—217.

1987

*The General Divisor Problem.* — Journal of Number Theory, 1987, 27, 1; 73—91.

*On a Problem Connected with Zeros of  $\zeta(s)$  on the Critical Line.* — Monatshefte für Mathematik, 1987, 104; 17—27.

*On consecutive zeros of the Riemann zeta-function on the critical line.* — Séminaire de Théorie des Nombres de Bordeaux le 22 mai 1987. Bordeaux, Université 1986—1987. Exposé n. 29; 1—14.

*On some estimates involving the number of prime divisors of an integer.* — Acta Arithmetica, 1987, XLIX; 21—33.

*On some mean value results for the Riemann zeta-function.* James Lee Hafner and Aleksandar Ivić. — Proceedings of "Conférence Internationale de Théorie des Nombres", Québec 5 au 18 juillet 1987. Québec, Société Mathématique du Canada, 1987; 1. 10.

Isto: Berlin, Walter de Gruyter and Co., 1988; 348—358.

*Sums of products of certain arithmetical functions.* — Publications de l'Institut mathématique, 1987, n. s. 41(55); 31—41.

1988

*Gaps Between Consecutive Zeros of the Riemann Zeta-Function.* Aleksandar Ivić and Matti Jutila. — Monatshefte für Mathematik, 1988, 105; 59—73.

*The Distribution of Quotients of Small and Large Additive Functions.* — Bollettino della Unione Matematica Italiana, 1988, 7, 2-B; 79—97.

*Some new estimates in the Dirichlet divisor problem.* Aleksandar Ivić and Michel Ouellet. — Acta arithmetica, 1988, 52, 3; 1—13.

*Some recent results on the Riemann zeta-function.* — Proceedings International Number Theory Conference, Québec 1987. Berlin, Walter de Gruyter and Co., 1988; 424—440.

*Les zéros de la fonction zeta de Riemann sur la droite critique.* — Groupe de travail en théorie analytique et élémentaire des nombres 1986—1987. Orsay, Université de Paris-Sud, 88—01, 1988; 47—51.

**АЛЕКСАНДАР ИВИЋ**

дописни члан

(Допуна библиографије објављене у Годишњаку ХCV за 1988, 1989,  
стр. 449–456)

1988

Large values of some zeta-functions on the line  $\sigma = 1$  / A. Ivić // Hardy-Ramanujan Journal (Bombay). 11 (1988) 13–29.

1989

The average prime divisor of an integer in short intervals / A. Ivić, J.-M. De Koninck // Archiv der Mathematik. ISSN 0933–5846. 52 (1989) 440–448.

The distribution on certain arithmetical functions at consecutive integers / A. Ivić, P. Erdős // Colloquia Mathematica Societatis Janos Bolyai. ISSN 0010–1354. 51 (1989) 45–91.

Mean values of certain zeta-functions on the critical line / A. Ivić, A. Perelli // Litovskij Matematičeskij Sbornik. ISSN 0132–2818. 29 (1989) 701–714.

On some integrals involving the mean square formula for the Riemann zeta-function / A. Ivić // Publications de l'Institut Mathématique. ISSN 0350–1302. 46 : 60 (1989) 33–42.

On some mean value results for the Riemann zeta-function / A. Ivić, J. L. Hafner // Proceedings International Number Theory Conference, Québec 5–18. 7, 1987. Berlin – New York : Walter de Gruyter and Co., 1989. Str. 348–358.

On the iterates of the enumerating function of finite Abelian groups / Paul Erdős, Aleksandar Ivić // Bulletin / ASSA. Classe des sciences mathématiques et naturelles. Sciences mathématiques. ISSN 0561–7332. 99 : 17 (1989) 13–22.

On the mean square of the Riemann zeta-function on the critical line / A. Ivić, J. L. Hafner // Journal of Number Theory. ISSN 0129–3281. 32 (1989) 151–191.

On sums of Fourier coefficients of cusp forms / A. Ivić, J. L. Hafner // *L'Enseignement Mathématique*. ISSN 1131-9321. 25 (1989) 375-382.

Some new estimates in the Dirichlet divisor problem / A. Ivić, M. Ouellet, Québec // *Acta Arithmetica*. ISSN 0065-1036. 52 (1989) 241-253.

Some recent results on the Riemann zeta-function / A. Ivić // *Proceedings International Number Theory Conference, Québec 5-18. 7, 1987*. Berlin, New York : Walter de Gruyter and Co., 1989. Str. 424-440.

#### 1990

Large values of certain number-theoretic error terms / A. Ivić // *Acta Arithmetica*. ISSN 0065-1036. 56 (1990) 135-159.

On the  $k$ -th prime factor of an integer / Aleksandar Ivić // *Zbornik radova PMF-a u Novom Sadu. Serija : matematika*. ISSN 0352-0900. 20 (1990) 63-73.

Неки новији резултати Риманове зета-функције / Александар Ивић // Глас / САНУ. Одељење природно-математичких наука. ISSN 00374-7956. 362 : 55 (1990) 65-72. [Саопштење].

A note on the mean-value of the zeta and L-functions VII / A. Ivić, Y. Motohashi // *Proceedings of the Japan Academy. Series A : Mathematical Sciences*. ISSN 0024-6115. 66 (1990) 150-152.

On the average prime factor of an integer and some related problems / A. Ivić, J.-M. De Koninck // *Ricerche di Matematica*. ISSN 0035-6298. 39 (1990) 131-140.

Random sums related to the prime divisors of an integer / A. Ivić, J.-M. De Koninck // *Publications de l'Institut Mathématique*. ISSN 0350-6298. 48 : 62 (1990) 7-24.

#### 1991

On the zeros of the error term for the mean square of  $|\zeta(\frac{1}{2} + it)|$  / A. Ivić, H. te Riele // *Mathematics of Computation*. ISSN 0932-4194. 56 : 193 (1991) 303-328.

#### 1992

An asymptotic formula involving the enumerating function of finite Abelian groups / A. Ivić // *Publikacije Elektrotehničkog fakulteta. Serija : matematika*. ISSN 0522-8441. 3 (1992) 61-66.

The distribution of small and large additive functions II / A. Ivić, P. Erdős // *Proceedings of the Amalfi Conference on Analytic Number Theory, Amalfi September 1989*. Salerno : Università di Salerno, 1992. Str. 83-93.

Matula numbers for coding chemical structures and some of their properties / A. Ivić, I. Gutman, S. B. Elk // *Journal of Serbian Chemical Society*. ISSN 0352-5139. 58 : 3-4 (1992) 193-201.

The mean square of the Riemann zeta-function of the line  $\sigma = 1$  / A. Ivić, R. Balasubramanian, K. Ramachandra // *L'Enseignement Mathématique*. ISSN 1131-9321. 38 (1992) 13-25.

On the error term for the counting function of finite Abelian groups / A. Ivić // Monatshefte fuer Mathematik. ISSN 0100-0934. 114 (1992) 115-124.

On zeta-functions associated with Fourier coefficients of cusp forms / Aleksandar Ivić // Proceedings of the Amalfi Conference on Analytic Number Theory, Amalfi September 1989. Salerno : Università di Salerno, 1992. Str. 231-246.

La valeur moyenne de la fonction zeta de Riemann / A. Ivić // Séminaire de Théorie des Nombres, Paris 1991-1992. Berlin : Birkhäuser Verlag, 1992. Str. 115-125.

1993

An application of the Hooley-Huxley contour / A. Ivić, R. Balasubramanian, K. Ramachandra // Acta Arithmetica. ISSN 0065-1036. 65 (1993) 45-51.

The Laurent coefficients of certain Dirichlet series / A. Ivić // Publications de l'Institut Mathématique. ISSN 0035-6298. 53 : 67 (1993) 23-36.

On a multiplicative function connected with the number of direct factors of a finite Abelian group / Aleksandar Ivić // Zbornik radova PMF-a u Novom Sadu. Serija : matematika. ISSN 0352-0900. 23 : 2 (1993) 189-198.

On a sum involving the number of prime factors of an integer / Aleksandar Ivić // Publikacije Elektrotehničkog fakulteta. Serija : matematika. ISSN 0522-8441. 4 (1993) 45-50.

Power moments of the error term in the approximate functional equation for  $\zeta^2(s)$  / A. Ivić // Acta Arithmetica. ISSN 0065-1036. 65 (1993) 137-145.

1994

Graphs with maximal and minimal Matula numbers / I. Gutman, A. Ivić // Bulletin / ASSA. Sciences mathématiques et naturelles. Sciences mathématiques. ISSN 0001-4184. 107 : 19 (1994) 65-74.

The mean square of the error term for the fourth moment of the zeta-function / A. Ivić, Y. Motohashi // Proceedings of the London Mathematical Society. 3 : 69 (1994) 309-329.

The moments of the zeta-function on the line  $\sigma = 1$  / A. Ivić // Nagoya Mathematical Journal. ISSN 1015-2857. 135 (1994) 113-120.

On certain divisor functions in short intervals / A. Ivić // Publications de l'Institut Mathématique. ISSN 0035-6298. 55 : 69 (1994) 9-17.

On some integrals involving the Riemann zeta-function in the critical strip / A. Ivić, I. Kiuchi // Publikacije Elektrotehničkog fakulteta. Serija : matematika. ISSN 0522-8441 5 (1994) 13-22.

On the number of digital convex polygons inscribed into an  $(m, m)$ -grid / A. Ivić, J. Koplowitz, J. Žunić // IEEE Transactions on Information Theory. ISSN 0018-9448. 40 (1994) 1681-1686.

Power moments of the Riemann zeta-function over short intervals / A. Ivić // Archiv der Mathematik. ISSN 0933-5846. 62 (1994) 418-424.

Sums of coefficients of Hecke series / A. Ivić // *Acta Arithmetica*. ISSN 0065–1036. 68 (1994) 341–368.

1995

An approximate functional equation for a class of Dirichlet series / *Journal of Analysis*. ISSN 0021–8928. 3 (1995) 241–252.

Arithmetic characterization of regularly varying functions / A. Ivić // *Ricerche de Matematica*. ISSN 0035–6298. 44 : 1 (1995) 41–64.

The fourth moment of the Riemann zeta-function / A. Ivić, Y. Motohashi // *Journal of Number Theory*. ISSN 0129–3281. 51 (1995) 16–45.

On a class of convolution functions connected with  $(\zeta)$  / A. Ivić // *Bulletin / ASSA*. Classe des sciences mathématiques et naturelles. Sciences mathématiques. ISSN 0001–4184. 109 : 20 (1995) 29–50.

On Kurepa's problems in number theory / A. Ivić, Ž. Mijajlović // *Publications de l'Institut Mathématique*. ISSN 0035–6298. 57 : 71 (1995) 19–28.

On some estimates involving the binary additive divisor problem / A. Ivić, Y. Motohashi // *Quarterly Journal of Mathematics*. ISSN 0033–5614. 2 : 46 (1995) 471–483.

On sums of gaps between the zeros of  $(\zeta)$  on the critical line Aleksandar Ivić // *Publikacije Elektrotehničkog fakulteta. Serija : matematika*. ISSN 0522–8441 6 (1995) 55–62.

On sums of reciprocals of the largest prime factor of an integer II / A. Ivić // *Acta Arithmetica*. ISSN 0970–0455. 71 (1995) 241–245.

On the fourth moment of the Riemann zeta-function / Aleksandar Ivić // *Publications de l'Institut Mathématique*. ISSN 0350–1302. 57 : 71 (1991) 101–110.

On the maximal order of certain arithmetic functions / Aleksandar Ivić // *Filomat*. 9 : 3 (1995) 483–492.

1996

The Laplace transform of the square in the circle and divisor problems / A. Ivić // *Studia Scientiarum Mathematicarum Hungarica*. ISSN 03373–1227. 32 : (1996) 181–205.

The Mellin transform and the Riemann zeta-function / A. Ivić // *Proceedings of the Conference on Elementary and Analytic Number Theory, Vienna July 18–20, 1996* / editors W. G. Nowak [et al.]. Wien : Universität Wien, Universität für Bodenkultur, 1996. Str. 112–127.

On large additive functions over primes of positive density / A. Ivić // *Mathematica Balkanica*. 10 (1996) 103–120.

On Matula numbers / A. Ivić, I. Gutman // *Discrete Mathematics*. ISSN 0924–9265. 150 (1996) 131–142.

On the distribution of zeros of a class of convolution functions / A. Ivić // *Bulletin / ASSA*. Classe des sciences mathématiques et naturelles. Sciences mathématiques. ISSN 0561–7332. 111 : 21 (1996) 61–71.

On the error term in the mean square formula for the Riemann zeta-function in the critical strip / A. Ivić, K. Matsumoto // Monatshefte fuer Mathematik. ISSN 0100-0934. 120 (1996) 213-229.

On the ternary additive divisor problem and the sixth moment of the zeta-function / A. Ivić // Sieve Methods, Exponential Sums, and their Applications in Number Theory / editors G. R. H. Greaves ... [et al.]. Cambridge : Cambridge University Press, 1996. Str. 205-243.

Some problems on mean values of the Riemann zeta-function / A. Ivić // Journal de Théorie des Nombres de Bordeaux. ISSN 0021-8251. 8 (1996) 101-122.

On the number of divisors of  $n!$  / A. Ivić, P. Erdős, S. W. Graham, C. Pomerance // Analytic Number Theory : Proceedings of a Conference in Honor of Heini Halberstam, Urbana May 1995. Vol. 1. / eds. B. C. Berndt ... [et al.]. Boston : Birkhäuser, 1996. Str. 337-355.

1997

The general additive divisor problem and moments of the zeta-function / A. Ivić // New Trends in Probability and Statistics. Vol. 4 : analytic and probabilistic methods in number theory : Proc. Second Inter. Conference in Honour of J. Kubilius, Palanga, Lithuania 23-27 Sep. 1996 / editors A. Laurinćikas [et al.]. Vilnius, Utrecht, Tokyo : TEV, Lithuania and VSP, 1997. Str. 69-89.

On some results concerning the Riemann Hypothesis / A. Ivić // Analytic Number Theory, Kyoto 1996 / editor Y. Motohashi, LMS LNS 247. Cambridge : Cambridge University Press, 1997. Str. 139-167.

On the mean square for the error term in the approximate functional equation for  $\zeta^2(s)$  / A. Ivić // Archiv der Mathematik. ISSN 0933-5846. 68 (1997) 468-476.

Књиге

1991

Matematički metodi u rudarstvu i geologiji / A. Ivić, S. Vujić. – Beograd : Univerzitet u Beogradu, Rudarsko-geološki fakultet, 1991. – 328 str.; 24 cm.

The mean values of the Riemann zeta-function / Aleksandar Ivić. – Bombay, Berlin : Tata Institute of Fundamental Research, Springer Verlag, 1991. – 363 str.; 24 cm. (Lecture Notes 82).

Uvod u analitičku teoriju brojeva / Aleksandar Ivić. – Sremski Karlovci, Novi Sad, Izdavačka knjižarnica Zorana Stojanovića, 1996. – 389 str. ; 24 cm.
